AFNeT Standards Days

STEP AP242

by

Who we are ?

20
years of Experience

75
International Team Members

2
Technical centers

700
Customers

What we do ?

3D EVOLUTION

Collaborative software for your 3D CAD conversions and simplifications

3D ANALYZER

A simple and collaborative viewer for CAD
Users

3D KERNEL_IO

CAD interface Library – API Data conversion

4D ADDITIVE

Solution dedicated to 3D printers

What about Step Ap 242?

PLM and PDM CAD Exchange

Interoperability Format

Long Term Archiving

What about Step Ap 242 and Coretechnologie?

Our Customers Needs

Automotive, Aeronautics and
General Industry Sectors

Member of Lotar

Development of the STEP AP242 format

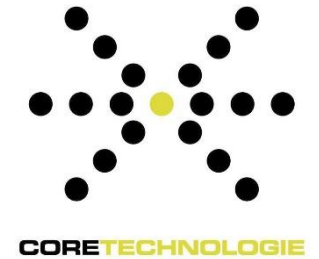

CAX-IF-Pilot - Electrical Harness, Composite, CAE

Member of Cax Implementor forum

Step Ap 242 customer use case?

Participate in the LOTAR consortium

Be read and used again throughout its life cycle
Validation is based on data and properties included in the STEP file
Archived files must first be validated

What about the future?

In a fragile economic and health context
